max. mass of vehicle: 2225 kg

design, power, and luxury. This car is a work of art that deserves to be driven with care and appreciation. It has been precisely maintained and is in a fantastic condition.

With a chip-tuned (Stage 1) engine producing an impressive 263 horsepower, the Audi A5 Cabrio offers a driving experience like no other. The top speed has been unlocked from the factory limit of 209 km/h, to an impressive 258 km/h. This ensures that the car can reach its full potential on the open road. It's equipped with all the features you need for a comfortable and enjoyable ride or road trip, including dual-zone AC, electric seats, automatic lights, rain sensors, heated windows and mirrors, daytime running lights, front and rear fog lights, and a retractable roof.

The car has been kept clean & maintained to ensure optimal performance and appearance. The wheels are in untouched condition, and the brake pads and plates were recently replaced, so you can be confident in the car's braking capabilities. To add a sporty touch and make the car stand out, an extra red layer has been applied to the brake calipers, which is sure to catch the eye of anyone who admires the car. With its sleek design, powerful engine, and carefully maintained components, the car is ready to deliver an unforgettable driving experience.

In addition to its impressive design and power, it has been further enhanced with some exciting modifications. One of the changes is the installation of an open exhaust system, which allows you to control the sound of the car. By default, the exhaust system operates with the factory settings, but if you want a deeper sound, you can open the valves to hear the engine roar.

Another exciting modification is the addition of "Pops & Bangs", which can be activated or deactivated with the touch of a button on the AC control panel. This feature adds an extra element of excitement to the driving experience, and is sure to turn heads as you cruise down the road. Whether you prefer a quiet cruising or a thunderous roar, this A5 with its unique modifications is sure to deliver an unforgettable driving experience.
