I have an Alfa Romeo 159 TI for sale. I'm owner of this car from almost three years.
 I always replaced all parts on time. I have invoices for it. In total, for about 5000 euro's.
 The car has traces of normal use. It has some chips or scratches.
 The car has never been smoked in.
 The car has a changed sound system and a subwoofer under the passenger seat. (I still have the original radio)
 The car has new APK until March 2024.

I'm selling because I don't need such a big car anymore.

Last bigger repairs:

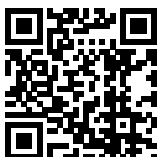

- 2 new all-season tires on the front
- All filters and oil changed(in March)
- complete clutch with flywheel
- a new battery

I replaced the timing belt 2 years ago. It currently has about 38,000 kilometers.
 You don't have to worry about it. It will work for a long time.
