Hello, I'm the second owner of V-Strom 1000 XTA 2019, bought a motorcycle when it has 15000km , and now it has around ~26000km.

I bought a bike from Venray Motors official dealer, they have a history of this bike before I have it.

The bike always was stored under a roof or in the garage.

Sorry for the photos, I will try to get some time and make better ones, this one I just have on my phone :)

The reason why I'm selling is that I want to try to learn more offroad riding and want to switch to a lighter and less powerful bike.

Driven mostly road, and 2 times Netherlands TET.

The bike comes with two sets of tires (both in good condition and tubeless):

- Continental trail attack 3
- Mitas e07 plus

luggage:

- Set of 3 boxes
- Single key
