Losecosan werkt 24 uur tegen terugkomend brandend maagzuur door de overtollige maagzuurproductie bij de bron te remmen. • De werkzame stof van Losecosan is 20 mg omeprazol • Unieke, gepatenteerde MUPS® tablet die snelle opname van de werkzame stof mogelijk maakt • Makkelijk door te slikken met water, kan ook opgelost worden in niet-bruisend water of vruchtensap Losecosan wordt gebruikt voor de effectieve behandeling van frequent terugkomend brandend maagzuur en zure oprispingen bij volwassenen. Losecosan reguleert de maagzuurproductie in de maagwand, zodat er genoeg, maar niet te veel maagzuur wordt geproduceerd. De werkzame stof van Losecosan is 20mg omeprazol. Omeprazol vermindert de hoeveelheid zuur die de maag aanmaakt. Losecosan zorgt gedurende 24 uur voor een effectieve remming van de maagzuurproductie. Losecosan® 20mg niet gelijktijdig gebruiken met nelfinavir. RVG-UAD 25213 Toepassingsvorm tablet
