Mercede C class with blue color and AMG edition in perfect condition. The car can be seen in Amstelveen by appointment.

It has a new set of Goodyear tyres with a production date of 2022. Both front and rear break discs and pads were renewed in Mercedes Stern service in 2022. I have the proof and invoice of all the service records since I own the car.

There is a small area with a scratch underneath the front bumper that can be seen in the photos. There have been no serious accidents or repairs to the car.

Please contact me to make an appointment or if you have any.
