2004 Honda Odyssey, 7 passenger mini-van and large luggage compartment.

The car has a broken windshield and passenger window.
 There is also a button instead of a key to turn on the engine.

Furthermore, the car has a mileage of 250,000 km.

I have had the car for years and now want to sell it because my family no longer needs a bigger car.

We sell the car for parts and it can also be bought to drive in yourself, because the car still works fine.

I am often available all day to come by to view the car in.
