

# Honda Civic Type R (27.300 EUR)

Locatie **Noord-Brabant, Eindhoven**  
<https://www.advertentieX.nl/x-1542813-z>

I am selling my lovely original Dutch Civic Type R GT with a service history at Honda dealers.  
 Car has mods that push it's power to 350 HP; Eventuri Carbon Intake, Sport Exhaust Valve, ECU Remap.  
 Power is within very safe margins, work done by professional known garage BR-Performance.

Engine is in perfect condition, does not consume any oil and compression is perfect.  
 Major maintenances done between 110-120 k km.  
 Brakes have been overhauled, pads, discs and brake liquid have been changed all around.  
 Gearbox oil has been changed.  
 Spark plugs have been changed.

Oil and filters have been changed in January 2023 (the air filter you only clean with a K&N cleaning kit every 20k km).  
 Only OEM parts were used for maintenance.  
 Summer tires are good, rims are good.  
 Car can be tested by a garage of your choosing or preferably at a Honda dealer.

Mileage is around 128,000 KM, no minor or major service necessary because they have been all done.  
 The next major service should be done around 180k km or in 2026, the water pump and the accessory belt.

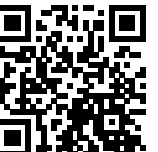

Mechanically it is perfect and optically it is very good.

Car is perfect for the road, kept in a private garage.  
 Car is parked in a professional garage, you can see

For more details you can call or message me.

I can provide more pictures and a complete history of the car.  
 It's a proper Type R that has not been abused and mostly used as a family vehicle, with a bit of fun occasionally.

A bit of information about this model.

---	--	--	--	---	--	--	--	--	--

---

Original Recaro produced seats with Alcantara leather.

Big Brembo performance brakes.

Car was only produced in 2015-2017, approximately 8000 exist in the world. This Type R will be a collector's item in the next decades due to it being more rare than some exotic supercars.

Engine has forged steel crankshaft and forged steel connecting rods and lightweight aluminium pistons.

With proper modifications people made 800+ hp out of this engine.

With stock internals engine can be pushed all the way to 500hp or even more.

This loveable rocket has seen a lot of care and the only reason that i'm selling it, is because I am not using it anymore and it's a pity it's not.
