Price is NOT negotiable!
 Shipping is not possible, only personal pickup!
 Testing is possible only at my place!
 After purchase, no refunds are offered regardless of the reason!

Used for my home lab.

Specifications:
 CPU - 2x E5 2640 6c/12t (total 12c/24t) @ 2.5GHz
 Memory: 24x4GB DDR3R
 HDD: NONE!

The server is in working condition. Used as a second server connected to my SAN for storage. Original HDD tray went bad and it was replaced with a more generic, simple, and more usable 4x3.5". It comes with NO TRAYS! What you see in the image are just dummy trays.

If you have any questions, feel free to message!
