13 in decent shape for age. Missing inflate valve cap (I just swap one from another kite since the tethers always break).

11 needs new one pump tubes for most struts. Centre strut definitely but the others are dry and flakey. Have replacement tubes and willing to do it for a price. Had a massive repair to canopy and leading edge.

9 in decent condition for age. Few small pin hole patches and some preventative double stitching on leading edge.

No, they are in no way suitable for beginners or learning.

Prefer someone take them all but will piece out. Kites.
