

## Supermicro H8QM8-2 Dual CPU Amd Opteron 8347 HE (150 EUR)

Locatie **Overijssel, Enter**  
<https://www.advertentiax.nl/x-1557884-z>

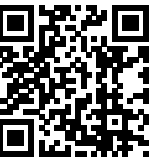

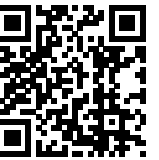

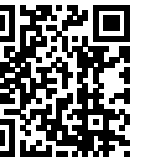

Moederbord:  
 Supermicro H8QM8-2+  
 - 1x PCIe x16 Slot  
 - 6x SATA2  
 - 2x USB + 4x USB via breakout  
 - 2x LAN Intel 82546GB 10/100/1000  
 - 1x VGA  
 Extended ATX

CPU:  
 2x Quad Core AMD Opteron 8347 HE rev B2

RAM:  
 8 GB

PSU:  
 Cooler Master 700W 80 Plus - RS-700-ASAA-A1 met diverse kabels.

HDD:  
 WD Caviar 160 GB SATA

|                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                   |
