I am selling my PC because I upgraded it. The PC has been cleaned and new thermal paste has been applied. It has always functioned perfectly without any problems. I can also supply a mouse and keyboard with the PC (Coolermaster Masterkeys). In addition, there are two extra bequiet fans and two nzxt case fans. I have kept all original packaging. Important: The USB port on the front of the case will not function due to bent pins. Shipping is not possible due to the risk of damage. Collection is the only option.
