From an estate we offer a beautifully restored hull of this saloon boat or former passenger boat. This comes from Germany (sailed on the Elbe as a passenger boat) dating from the early 1920s. Caravel built with steamed, sawn rafters, riveted with galvanized nails. .

there are also good design drawings made by a (ship) architect which are in the photos.

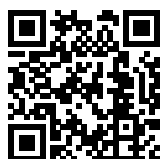

the boat must be seen to understand the beauty and an enthusiast who wants to take over this project and can apply his own ideas such as electric propulsion, construction from a tent in combination with teak wheelhouse or the like!

Trade-in negotiable (car, motorcycle, boat,)
