About me:

I'm a 27 years old Italian expat working in IT for the EU at EMA. After relocating, I needed something to spend my free time and relax, and I bought this laptop to play games with friends. After a while, I decided to replace it with a fixed workstation, and that is why I am selling it.

Over het product:

Ik verkoop een Asus ROG Zephyrus S17 GX703HS Gaming Laptop.

Het werd gekocht in Italië in november 2021. Ik verkoop hem omdat ik mijn custom workstation bouw met een 4090.

Het is een van de krachtigste laptops die je op de markt kunt vinden. Betaalde 4k euro.

Hij wordt geleverd met een laptop koelstand en is op maat gemaakt met een Intel AX201 WiFi 6 netwerkkaart ter vervanging van de standaard Mediatek kaart voor betrouwbare prestaties. Hij valt nog binnen de geldigheidsvoorwaarden en garantieperiode!

Over mij:

Ik ben een 27-jarige Italiaanse expat die bij EMA in de IT voor de EU werkt. Na mijn verhuizing had ik iets nodig om mijn vrije tijd door te brengen en te ontspannen, en ik kocht deze laptop om spelletjes te spelen met vrienden. Na een tijdje besloot ik hem te vervangen door een vast werkstation en daarom verkoop ik.
