The 2018 Airush Wave kite delivers further refinement to the dedicated wave purist or surf freestyle rider. One of the key aspects of the Wave kite is the unique ability of the kite to engage smooth power delivery and precise steering.

Whether far back in the window during a powered bottom turn in onshore conditions, flying far forward in the window in offshore conditions, or at a high angle of attack: the Wave delivers.

The redesigned wingtip enhanced these capabilities and avoids the wingtip "flaring" when over sheeted, preventing the kite from dropping back in the window. The all-new Airush Dyneema Load Frame V4 featuring WebTech has enabled us to increase the strength of the Wave further, without adding extra
