Hey there, I am selling my Apple iPad 8th Generation 32GB.

This device has been my loyal companion for just a year (mainly during my masters), I bought it directly from Apple Store and I have been its only owner. It served me exceptionally well for note-taking, attending meetings, reading papers, and enjoying movies on the go. It's in pristine condition and comes bundled with an Apple Pencil, Logitech Rugged Folio Keyboard, an extra cover, and a Paper-like screen protector which enhances the writing experience and protects the screen.

With its 32GB storage capacity, you'll have ample space for all your apps, files, and entertainment needs. If more storage is needed you can extend the memory using iCloud or any other cloud storage service.

The 10.2-inch Retina display offers vibrant visuals, making movies and documents come to life. The A12 Bionic chip ensures smooth performance, while the Touch ID sensor provides secure access. Its long-lasting battery keeps you going throughout the day without worry.

Don't miss out on this!
