The screen has a small scratch on the top right. The frame and back look good and have almost no user marks. The iPad comes in the original box with a used charging kit. Battery capacity is 90%
Note: The screen has a slight 'White spot', this is a known problem with iPads. It is a white spot that is always present. In the this case, the spot is at the bottom of the screen just above the home button. It is barely visible, especially on a coloured or dark background
