I sell this kitesurf wing from the brand Storm, model 2019 voyager V12 limited edition. It is a strutless kite, therefore very ligh and adapted to very low wind and foiling. It is also very easy to carry thanks to it's minimal volume.

If needed, I also have a 4 lines Storm bar available for 90€.

The condition is used (around 30 sessions I would say), without holes or réparations. There's an orange spot on the blue spinnaker.

Feel free to ask for additional information or pictures. You can come to see the kite and pump it. I can also send.
