Ten velox 10 en 8 m de koop aangeboden.
 De kites gaan weg wegens overcomplete set. De kites zijn dit jaar in december gekocht en er is met zowel de 10 als 8m minder dan 15 x mee gevlogen. De kites zijn helemaal gaaf en zien er als nieuw uit. Het doek knispert nog en er zijn geen gebruikersporen te zien. Doe een goed en u kan van de zomer van deze fantastische kites vele goede sessies beleven!

even though the Velox may look imposing, it's a surprisingly comfortable and easy ride. Light steering combined with lots (and lots) of depower, the Velox offers a decent low-end, but truly excels at riding powered up.

The kite smoothens the nastiest of gusts and makes riding fully overpowered a breeze. It gives you the focus and confidence to go big without sudden yanks or lulls right before take-off. The Velox is built with twice the amount of panels compared to regular kites. This gives optimal control over the profile of the kite and reduces canopy bulging under extreme load.

During those long lofty jumps, the Velox has a glide and handtime only matched by efficient foil kites. It's a kite that's easy to fly and will come to you with a soft and pillowy feel. It's a kite that's promising with performance for a lot of big air and a less old school feel. It's a kite that's your limit, and it's waiting for you. It's a kite that's for the velox lovers.
