• i do not sell to dealers. please do not send me messages with price offers

I sell a (almost) brand new Suzuki SV650 2021, currently with 1901km on odometer, bought on 12th May 2023, from a dutch motorcycle dealer (Boshuizen Motorcycles Raalte).

When i bought the motorcycle (1,5 months ago) it had only 150km on odometer.

I have the original invoice of the motorcycle (from 0km) + the original invoice from the dealer i bought it 1,5 months ago + the original service book + 2 original Suzuki contact keys.

This is the 2021 model, which has the 4 pistons calipers front brakes. (The early model before this only has the 2 piston front calipers).

It had first oil service + filter at 1007km.

TO AVOID commonly asked questions and comments:

"Did you fall with it?" Absolutely not, it looks like brand new, impeccable.

"Why do you sell it?" I realized I am scared to ride the motorcycles, and i will buy a (better) car instead.

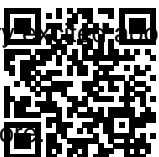

I will add some things on it and if you are interested, please contact me. I was very happy about the bike and I will sell it for a good price. I will use it for a short time, but it is a good bike. I will sell it for a good price.

I will give you the bike absolutely for free. I will give you the bike absolutely for free. I will give you the bike absolutely for free.

You are not gonna sell it, the internet is full of motorcycles. I will take my offer instead. That is no problem, it does not stay in my way, it will definitely sell at the right time, and i have plenty of "food" until then :)

Extras that are installed on the motorcycle and ARE included in the final price:

- Full Quad Lock system (ram mount, vibration damper, phone mount, usb fast charger + 2 cables included)

The motorcycle is the same as from factory, the height is not lowered, the power is not lowered (it is NOT A2 rijbewijs compliant). There is nothing changed to it.

The motorcycle has only 1901km on the odometer, done in 1,5 months; the tires still have the yellow lines on them from the factory, the 1000km service was just made with best products (2750ml Motul 5100 4T 10W40 oil + K&N Oil Filter).

if you want to check the number plate online, that is: 06-MS-RS

It can be seen in Leiden, ZH, near the Lammenschans train station. I only invite the serious.
