

Proposal Engineer Naval Systems

Locatie **Zeeland, Terneuzen**
<https://www.advertentiax.nl/x-1582548-z>

For one of our customers we are in search for a Proposal Engineer Naval Systems

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

The role:

As Proposal Engineer Naval Systems, you are responsible for the preparation of commercial and technical proposals for international and national governmental end customers. You will work in a multi-disciplinary proposal team and guide and coordinate the technical and commercial activities for new ship designs, maintenance or refits in sensor, weapons, command and control systems. This will result into an integration of systems into a naval combat suite and winning proposals within planning and budgets. As Proposal Engineer Naval Systems, you will work under the guidance of a proposal manager.

Key accountabilities:

As Proposal Engineer Naval Systems, you will:
