A MacBook Pro 13-inch 2017 Dual-Core i5, 128 GB RAM 8 GB, in the color Space Gray. The battery cycle is 120. The keyboard is QWERTY. The top, bottom and frame look very good, hardly any user marks! The screen also looks like new, it has no scratches. The keyboard and touchpad have very light user marks. Note: The screen has a very small pixel error slightly right of center. This is 1 pixel that always stays dark. A more common problem with MacBooks, in this case it's hard to notice the pixel error.
