Rarely driven, this car has an impressively low mileage of just 56,000 miles. It has been gently used and meticulously cared for, resulting in its excellent condition. With minimal usage, this vehicle has plenty of life left in it for its next owner. Don't miss out on this well-maintained gem. To provide full transparency, I want to mention that the door on the driver side has some paint imperfections and a faint shadow can be observed. While this does not affect the car's functionality and it is perfectly usable. English: This car has rarely been ridden and has an impressively low mileage of just 56,000 miles. It has been gently used and carefully maintained, resulting in its excellent condition. Due to the minimal use, this car has a long life for the next owner. Don't miss this well maintained gem.

To provide full transparency, I would like to mention that the driver's side door has some paint imperfections and a faint shadow is visible. However, this does not affect the functionality of the car and it is perfectly.
