Software Developer (m/f/d) "Now. Not tomorrow." The energy contained in this message runs through our entire company. As one of the first integrated energy companies in Germany and Switzerland, we have been climate-neutral since 2020. Do you also want your energy to flow into the energy transition? Then apply as a software developer (m/f/d). Bring your energy to us and look forward to exciting challenges Your tasks: Planning and implementation of system interfaces between Cloud2Cloud and Cloud2OnPremise systems in the SAP and non-SAP environment. Connection and management of system interfaces with SAP Integration Suite. Operation and monitoring of data and system interfaces of SAP Integration Suite. Establishment and operation of cloud services of the SAP Business Technology Platform. Implementation and support of SAP applications and processes What you bring to the table: Good knowledge in the field of software development frontend / backend. Previous knowledge in the area of SAP Cloudc, especially SAP Integration Suite. SAP BTP, serverless and containers are an advantage. Knowledge of SAP ABAP, SAP CAP, WebUI5/Fiori, Spring Boot. Experience with SOAP / REST / ODATA web service. Programming skills in JavaScript, Groovy, JSON, XML. Very good written and spoken German skills are required, good English skills round out your profile A degree in (business) computer science or comparable qualifications. Interested? Then apply Now. Not tomorrow. Birgit Friedlin is looking forward to your online application. Energiedienst Holding AGWebsiteklik hier voor meer.
