

# Microsoft 365 SharePoint and Power Platform senior engineer

Locatie **Gelderland, Putten**  
<https://www.advertentiax.nl/x-1586654-z>

At Arcadis we focus on attracting, retaining and developing people who share our passion and commitment to improve quality of life. In return we offer you the opportunity to transform your world and the world around you, that could be through client work, upskilling yourself, championing equality and inclusion or getting involved in charity work, to name just a few. Our people value different perspectives, they care about the sustainability of our planet and dare to shape the future.

One of our core values is 'people first', and supported by our Lovinklaan foundation, we invest in you for the long term, to ensure you reach your full potential. You'll have the opportunity to own your career and work on industry-defining projects, finding solutions to real challenges that make a difference to people's lives. You're encouraged to have a growth mindset and are given the space to develop personally and professionally, building a flexible career that works for you.

From climate change to urbanization, we live in an increasingly complex world. Whatever the challenge, we deliver exceptional and sustainable outcomes for our clients, improving quality of life.

You know you're in the right career when work becomes play, when organization purpose aligns with your personal purpose making every day a meaningful day. And your work helps the industry, the environment and the planet earth in positive ways while you get the opportunities, support and benefits you need.

Passionate, and curious and proactive. Purpose Driven and energized. That's #LifeAtArcadis #SustainableCities #PlanetforNextGeneration. Are you ready to discover it for yourself?

Arcadis is looking for people with a passion to drive and execute Digital to the core of everything we do. We firmly believe in 'Everything Digital, Digital Everything'. We are transforming, we are reimagining the industry and we are reimagining how communities and nations can help becoming more sustainable places to live for today and future generations.

Technology is the core and the heart of what we do. The way we are working is changing. We are harnessing the power of data and AI for services and Adv...  
 phones, technology teams, learning, Blockchain, working on... part of... technology drive. We are looking for... and talented... passionate...  
 across multiple regions including Asia, Romania, Africa, Europe, Asia, and America.

Arcadis is looking to hire a Senior Engineer to support the Productivity Services Sharing Services team, working as part of a global team.  
 As a Senior Engineer you will be joining the team focusing on all the tools and services used to collaborate like SharePoint, OneDrive and the Microsoft Power Platform.  
 As part of the team you'll not only be supporting our existing services but investigating the new Microsoft 365 tools and services that are on the roadmap  
 upcoming projects such as Multi-Go implementation or exciting additions to the teams portfolio of services.

Why Become an Arcadian?

Our work with clients has a direct impact on people's lives and on the planet. We make moving, living and belonging in cities safer, more resilient and more sustainable. By partnering with our clients as responsible custodians of our earth's resources, we can create a sustainable planet.

We continue to think of new ways to make positive impacts and create better experiences for people; data driven and digital solutions have become part of the Arcadis DNA. Working together with clients and using techniques like design thinking, we can get to the heart of our clients' most pressing challenges and work together to solve them.

As a global business, we have committed to support five of the UN's Sustainable Development Goals to ensure that our projects contribute to a better and more sustainable future for all. But it's not just the work that we do on client projects that benefits communities and our planet. As a global business, we are committed to making a positive impact to society by supporting local communities where we operate.

---

To help protect our planet, we monitor and measure non-financial information to inform business decisions and reduce our own environmental impact as part of our commitment to be net zero carbon as a global company by 2030.

Our Commitment to Equality, Diversity, Inclusion & Belonging

We want you to be able to bring your best self to work every day, which is why we take equality and inclusion seriously and hold ourselves to account for our actions. Our ambition is to be an employer of choice and provide a great place to work for all our people.

Transform Your World
