## About us

Damen Naval offers you a career that is challenging, exciting and fun in equal measure. The Naval division of the family-owned Damen Shipyards Group is established in Vlissingen and in Schiedam. It is a company with more than 850 professionals, and a rich tradition of naval shipbuilding, its original roots stem back more than 150 years. For more than 50 years Damen Naval has been the dedicated shipbuilder for the Royal Netherlands Navy. Based on decades of accumulated experience, Damen Naval offers navies worldwide a broad range of defence and security vessels, ranging from 7m to more than 200m in length. Damen Naval is the only supplier of naval vessels in the Netherlands. Damen Naval has delivered more than 420 vessels to satisfied customers all over the world and have has earned a reputation for excellence along the way. While taking pride in heritage, Damen Naval is also looking towards the future. Are you ready for duty?

## The role

For this interim role Damen Naval is looking for an Automation Engineer who can start on a temporary basis for the periode of one to two years.

As Automation Engineer you will be working on a broad variety of tasks in the field Automation and will be involved from the very first (proposal) phase in the project to perform design proposals and calculations. During the execution of the project, you will work in a team of several engineers in order to deliver the
