Due to the purchase of a new phone, I am selling a Xiaomi Mi 9 SE smartphone in near-new condition with the following features:

RAM: 6 GB CPU: Snapdragon 712 Qualcomm SDM712Memory: 64 GBGPU: Adreno 616Main camera: 48 MpUltra-wide camera: 13 Mp2x camera: 8 MpMacro, HDR, AI functions for cameraSelfie camera: 20 MpBattery: 3070 mAhDual SIM

The phone has no scratches on either the screen or the back, nor on the cameras, to which I additionally give two (used) covers.

The charger is included and in excellent condition, although I would like to point out that I had to replace it due to a malfunction of the original.

Also, unfortunately I lost the small pin that opens the SIM compartment, but you can easily use any other one as an alternative.

Note: The ad cover photo shows that the screen is fully functional, while the second shows the quality of the photo taken directly from the phone itself (on 25 June 2023).

Other note: I also have a couple of videos demonstrating how the phone works, in case you want to be more sure of.
