Project Manager ICT (Interim)

Build and maintain a network of in- and external stakeholders/partners and proactively inform and involve the Steering Committee and other key stakeholders. Involve, manage, and empower relevant project stakeholders from both business and IT. Identify, analyse, challenge, and align the views and interests of all relevant stakeholders. Evaluate and close project and find, analyse, and share lessons learned, archive project documents and hand over project to the business and to the IT Support Organization using the transition to support process. Compliance with the project (portfolio) management rules and principles, with corporate and operational regulations. Understand and consistently question the status quo of your running projects and analyse existing processes and project (progress) data. Skills & experience

As IT Project Manager (Project Based) you need to have: Relevant Bachelor degree, preferably complemented with Project Management qualifications. Five to ten years, working experience in project management and portfolio management in a large, international organization, working as project support officer, or a similar position. Sound knowledge of PMBOK and/or Prince2, Agile/Scrum, and with working experience in Waterfall and Agile/Scrum projects. Experience with project financials and with implementation of change and improvement projects. Working knowledge of MS Office products, MS Project, and SharePoint. Good command of Dutch, German & English language written & verbal. Vlissingen and Schiedam are our main locations it is important to be there regularly. Excellent antecedents as a pre-employment security screening and investigation are a part of the recruitment procedure (given the military nature of the projects). EU citizenship or valid EU work visa required to be considered as viable candidate. What we offer

At Damen Naval, we highly value our employees, and we will support your professional and personal development. To that end, we invest in all our employees by offering: A technology and innovation focused, dynamic, international work environment. A comprehensive introduction to shipbuilding for anyone without a naval or maritime background. Ongoing learning and development opportunities within a diverse and rewarding work environment. An active social environment in terms of business culture, events & sports. Other
