The MBE subsidiary based in The Netherlands is a network of branches (Germany Branch (Dusseldorf, Hamburg, Frankfurt, Munich), Spain Branch (Madrid, Barcelona), Belgium Branch (Brussels), Austria Branch (Vienna)), managed from Amsterdam.
Your impact at MUFG

The purpose of this role is to lead the CRM team in identification, assessment, monitoring and evaluation of credit risks on portfolio level. The Head of Credit Risk takes into account all related risks and controls and their impact on organization. The role requires a person with up-to-date understanding of corporate banking, risk management, regulatory environment and wider economic and political factors which may impact MBE's business. The role also requires a close contact with internal and external stakeholders for exchange of information, developments and sharing of best practices.

The Head of Credit Risk also aims for continuous improvement by updating or obtaining relevant and required knowledge in the field of Credit Risk Management as well as key relevant legal, regulatory and statutory requirements by internal and/or external training/study in agreement with the bank.

Consultation and others

Participating in internal and/or external consultation platforms (either on an ad hoc or permanent basis) regarding Risk Governance:
RMC (Risk Management Committee) Stress Testing Oversight Group Provisioning Oversight Group Credit Portfolio meetings with business Risk Concilium EMEA credit risk committees/forums (e.g. Credit Risk Committee, Credit Risk Control Oversight Committee) Function positioning

Credit Risk Management (CRM) department is responsible for the 2nd LoD oversight over credit risk control framework and credit risk profile of the bank. That includes credit risk governance, credit risk appetite, credit stress testing, periodic (qualitative and quantitative) risk assessments and credit risk monitoring. CRM is a key stakeholder in assessing new business cases and advising the Management Board. CRM department acts as a local model owner for all credit risk models used within MBE.

Credit Risk Management consists of 3 coverage areas: Credit Risk Governance, Quantitative Risk Oversight, Qualitative Risk Oversight.

CRM is part of the Credit Risk Division (CRD) and organizationally reports to the Head of Credit, who in turn reports to the Chief Risk Officer.

This is a team lead role and supports division Head in broader credit risk management agenda, cooperates closely with other teams, and have frequent interactions with senior management across divisions within MBE and MUFG Group.

The role includes the following Manage CRM team, communicate objectives and perform

appraisals; Prepare annual CRM work plan and ensure that work meets bank's standards and is delivered timely; Provide mentoring/coaching to team members and support them in their professional development; Support CRO in promoting risk culture in the bank; Proactively establish and manage relationships with other teams/divisions and wide range of key contacts across MUFG and support the wider EMEA agenda; Represent CRM team in internal committees and attend ad-hoc meetings with internal and external stakeholders (i.e. parent representatives, regulators); Lead monitoring and challenging of 1st line activities, as well as provide guidance and expertise with respect to credit risk topics; Execute risk management cycle for credit risk (identification, assessment, monitoring and evaluation); Own credit risk management policy houses documents (i.e. policy, standards, procedures and work instructions), contribute to self-assessments against local regulatory requirements (e.g. EBA/ECB guidance) and ensure the bank is compliant with applicable regulation in EU; Ensure reports for internal and external stakeholders are accurate, complete and timely delivered; Contribute to the Internal Capital Adequacy Assessment (ICAAP), the Recovery Plan, the Risk Appetite Statement (RAS) and limit setting processes, and ensure these processes are documented and that policies and procedures are followed; Take ownership of internal credit models and ensure compliance with model governance; Support Head of Credit with other ad-hoc assignments and projects owned by the Credit Division

In order to be successful in the role, you will need the following:

Skills and experience
Academic degree in quantitative field (e.g. Economics, Econometrics, Finance, Engineering or other relevant field of study), MBA or professional qualification (e.g. CFA/FRM) is an advantage
At least 10 years of relevant work experience with credit risk in commercial banking covering corporate clients, either in 1st or 2nd Line of Defense roles, or credit risk advisory roles; Fluent language skills in English
