Locatie **Gelderland, Putten**
<https://www.advertentiax.nl/x-1592988-z>

Vacature details
 Vakgebied: Software/IT
 Opleiding: Junior
 Werklocatie: Delft
 Vacature ID: 11929
 Introductie
 We are looking for a Data Analyst who has affinity with Procurement or Supply Chain. In this role you are the bridge between business and IT. Many deliverables to the business result in projects. Stakeholder management and business requirements are key to your success. You work closely with the business analysts in all phases and have an active role during the rollout of new dashboards to meet the needs of the business.
 Functieomschrijving
 You advise our end users on a daily basis about the contents of their data and how they can optimize the use to gain better insights. You provide solutions to create practical insight into business ;
 You collect data from different sources, and combine and model this data into meaningful facts and metrics. You present them in visually attractive dashboards and portals that are also used to provide added value to our customers.
 You will migrate inventory stock systems into one ERP system;
 You will develop MRPII stock replenishment systems;
 Define way of working and help and guide to optimize SCM procedures.
 In addition to Part Catalogue administration, take direction and develop process improvements within Supply chain.
 You will be migrating Supplier data for each Entity
 You will ensure Supplier renewals are conducted to time scale
 You will provide analysis reporting for Supplier Performance Evaluation
 Wat verwachten we van jou?
 Bachelor or Master in Data Science, Information Technology or Supply Chain
 Experience with SQL and Excel is useful for this position
 You have excellent English language skills both written and oral.
 You have the ability to understand high level software and systems architecture (you are expected to participate in day-to-day development or operations).
 You have good communication skills on a technical and non-technical level, and able to collaborate across functions;
 Wat kun jij van ons verwachten?
 A competitive salary.
 Extensive career & training opportunities both nationally and internationally;
 Flexible working hours and the ability to work from home in accordance with your manager and corporate policies;
 Voordelen van solliciteren via Trinamics
 Keuze uit meer dan 500+ technische vacatures.
 Je profiteert van ons grote netwerk aan bedrijven.
 Eenmaal aan het werk, blijven we met je in ;
 Altijd een persoonlijke consultant voor ál jouw ;
