Vacature details  
Vakgebied: Software/IT  
Opleiding: Senior Werklocatie: Delft  
Vacature ID: 13301  
Introductie We are seeking a Lead Java Developer for our team in the area of Delft. You will develop an application used exclusively by the engineers and geologists for site characterizations, which imports raw field and laboratory measurements for further processing, integration, ground modelling, and geotechnical analysis and reporting. The client/server application is entirely written in Java, and the server is hosted in the Amazon cloud, utilizing frameworks such as Spring and Hibernate, and connected to an MS SQL Server RDS instance. There is a trend towards using more cloud technology.  
Functieomschrijving As the Lead Java Developer in one of our teams

- you will contribute to all phases of the product's development
- Organize your team's daily stand-up meetings and serve as the team's coach. As the lead developer, you maintain track of other developers' architectural questions, assist them as needed, and set boundaries for them;
- Keep up to date with all relevant software development technologies;
- Provide field support as required;
- Strive for continuous improvements.

Wat verwachten we van jou? a technical computer science bachelor's or master's degree; Understanding of System Architecture, Java Technologies (Java 8+, Java Messaging Service), and Software Testing; Clean code, design patterns, cloud computing (AWS is preferred), knowledge of basic SQL databases, RCP, SWT, Eclipse IDE, Eclipse RCP, Maven, ORM (object relational mapping), OOP (object oriented programming), Git, and web technologies (REST, etc.) are all things that should be known about or experienced with; Software development expertise in agile methodologies; Ability to speak and write English well Wat kun jij van ons verwachten? The right candidate will be provided a challenging and varied position in a professional, high-tech environment An appropriate salary based on your experience and education Future prospects and excellent benefits are evident After a period of secondment and functioning properly, you can be contracted by our client Good secondary conditions such as a minimum of 25 holidays and 8,33% holiday allowance Courses to develop yourself professionally and personally via Trinamics Academy Discount on your healthcare and referral bonuses and fun activities Certain pre-employment screening checks may be part of this vacancy procedure Voordelen van solliciteren via Trinamics Keuze uit meer dan 500+ technische vacatures Je profiteert van ons grote netwerk aan bedrijven Eenmaal aan het werk, blijven we met je in ; Altijd een persoonlijke consultant
