The Xtreme series from EDGE offers the big brothers to the new Street series Full bridge full range class D amplifiers in single channel and stereo applications.

The Xtreme series amplifiers are new to the EDGE range and feature Class D topology but use a full bridge method of power delivery.

This is more efficient method of converting DC power from your battery to AC output for your speakers. Full bridge technology allows us to generate large power in a tiny footprint.

The custom tooled heatsink was designed with over engineered fins for excellent heat dissipation ensuring the amp works well and cools correctly.

All models have built in active crossovers and bass boost and can be used to power subwoofers, midrange drivers or tweeters. To power Xtreme series speakers and subwoofers you need Xtreme amplifiers.
