Seniority Level: Mid-Senior Level AB InBev is seeking a Global Senior SME Glass Packaging in the Global Innovation & Technology Center (GITEC), in Belgium. At the heart of our dynamic global growth is a simple belief: nothing should come between incredibly talented people and an accelerated career. That is why we dream big. Why we look to the future, not the past. Why we value talent over title. And why we hire people that can be better than ourselves. At AB InBev you'll join a driven team that shares your desire to grow, your courage to challenge and commitment to act. In return, we will reward your achievements. The opportunity is here. Make it yours! Purpose: As a part of the packaging team, you will be responsible for the design and deliver breakthrough for the glass packaging (carton, corrugate, labels) technologies to deliver cost saving, capex avoidance, carbon footprint reduction or product quality improvement. This through leading execution of global projects and consulting zone projects. You will be the recognized expert on glass packaging for the whole company. The role: Responsible for overall platform tracking and monitoring Focusing on the full supply chain: glass chemistry, glass packaging design and specifications, glass packaging manufacturing, glass packaging filling and glass packaging transport Daily collaboration with internal (engineering, procurement ...) and external (universities, suppliers, institutes ...) partners Responsible to identify, scope and verify new technologies and opportunities Lead execution of feasibility, development and first implementation through multifunctional teams and on the field presence Who we're looking for: Relevant scientific master's degree 5-10 years profound professional technical expertise on glass converting In depth understanding of glass bottle chemistry, glass bottle packaging design/specifications and glass bottle filling DOE (Design of Experiment) or Six Sigma (Black Belt, Green Belt) certified, or equivalent trough experience Experience

and passion for front end technologies Strong ability to lead and manage projects and project portfolio High level of communication, strong communication skills, ability to influence, agile, ownership behavior, English fluently We're looking for an expert who'll have the potential to transform our business, you'll get while getting our support and mentorship you'll be able to succeed. Make your meritocracy, join our team for growth and development. You'll know that you'll work with the best. We're looking for you to think big and go after your goals. You'll get to be creative, work with international teams so you can build a global network and have direct control over your career and where it takes you. We are building a team that's more supportive, more inclusive and more collaborative. A team that's diverse in background, skills and experience. So ...
