

Lead Civil Engineer

Locatie **Zeeland, Terneuzen**
<https://www.advertentieX.nl/x-1596874-z>

We are hiring a Lead Civil Engineer for one of the largest chemical construction projects

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

You can join the largest overall construction project undertaken by INEOS. The O&P North business plan to establish a world-scale Cracker (1.25mtes/a Ethylene / 50kes/a Propylene) in the Antwerp area. The plant is planned to come on-line around 2026.

Project One will be managed by an Integrated Program Management Team (IPMT) which consist of Ineos and Program Management Contractor engineers. The facilities will be delivered by 4 Project Delivery Teams, which will manage the work scopes and FEED/EPC contractors with support and oversight from the IPMT.

You report to and support the Engineering Manager in the day to day management at site. At site, you are

the civil QAQC coordinator and field engineer. As such you make decisions on how to close NCRs and follow up on notices.

The O&P Project One will implement the largest and most complex construction project in Western Europe, including ISCC, with a 1.450 Kt/year ethylene cracker, 1.25mtes/a ethylene, 50kes/a propylene, storage and export facilities. As part of the AZaP pillar scope, an existing Ethylene tank at Zwiindrecht will be re-purposed to support the storage of product received from the ECR unit. The project will be overseen by a Program approach, with each individual project having its own schedule.

Accountabilities:

To cover all CSA engineering aspects within OSBL: civil, structural, architectural and coordinating
