Connecting your world

You have a fast overview to define clear responsibilities with other platform collaborations such as Data ingestion teams, Data Quality, Data Governance, Enabling Technologies, Solution Architects and Users. This is how you connect the Netherlands with the rest of the world. How you will achieve this? That is up to you! At the Schiphol Group we trust in your talents, such as your will power and ability to persevere. Your talents will be used to achieve the following goals as Product Owner: Managing the product backlog and prioritizing based on changing requirements to enable delivery of great data products Work with stakeholders and customers within the organisation to shape and inform the product vision, in line with Schiphol's strategy and conform architecture, governance and security guidelines Shape the future of the Data Platform and merge data engineering teams into 1 DnA Mature run and change in DevOps on tech stack, content and process Align work with Service Leads and stakeholders

In addition to these tasks you arranging planning and refinement meetings for the teams. You incorporate feature requests into product roadmaps. You are also responsible to clarify requirements with customers.

As a next-generation professional you have a clear vision, courage and focus. You improve yourself every day so that you can be the best. You are introspective and resilient. You believe that creating a good atmosphere is essential for a successful, respectful and welcoming workplace. You've got this

In this role you have a solution for every problem. Also, you are able to work with attention to detail and stay focused. Other required skills are: Work experience as a Product Owner in big data domain Knowledge of data lakes and data integration techniques is a must Agile certification Excellent stakeholder management skills Hands-on experience managing all stages of the product Basic understanding of technical details of software development and big data environments

You get this € 5.011 to € 6.950 gross per month (scale 13) 8.33% bonus at the end of the year a working from home allowance of € 3.00 net per day A Schiphol's Career Allowance and a publicly paid 12.5% disability or long-term cycle (also known as 'wettelijke') (also known as 'wettelijke')

These are part of all the employment conditions that come with this position (based on a 36-hour working week). Schiphol Group has even more to offer. For the total overview of all employment conditions, please visit .

About the team

The IT & Data department is creating the airport of the future. We do this using the smartest digital solutions, tools and applications. With state-of-the-art technology, we keep the airport running. Our enthusiastic team works on data driven improvements in our processes, traveller flows and information provision. This is how we contribute to the best possible experience for travellers, customers and employees at and around the airport.
