

CNC Turner Miller

Locatie **Zuid-Holland, Zwijndrecht**
<https://www.advertentiex.nl/x-1598323-z>

You will be working at a company which is an industry leader in the Netherlands when it comes to CNC machining. In the early 70's the company designed and built their first roll-forming machine. Since then they acquired more than 40 years experience in designing and building these special machines.

The strength of the company is to innovate and build a machine entirely in conformity with the customer requirements.

Bedrijfsomschrijving

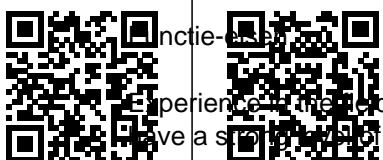

Waar ga je werken?

We have a different range of clients: from small to large, informal to formal. Together we determine what your needs are and ensure the right customer and go for the "perfect match". Are you the CNC Operator we are looking for at Maintec? Don't wait any longer and apply!

Functieomschrijving

The CNC turner / milling machinist autonomously produces precision parts from sheet material, bar stock, profiles and pipes by using CNC turning and/or milling machines.

Receives work orders from the Foreman (such as work plans, drafts and/or oral instructions). Verifies if the work orders, materials and (auxiliary) tools are correct and complete. Any abnormality must be reported immediately to the Foreman / Contractor. Makes correct use of (auxiliary) tools and protective equipment. Correctly programs and operates machines. Skillfully produces complete and complex pieces.
