

Machine mechanic

Locatie **Noord-Brabant, Hapert**
<https://www.advertentiex.nl/x-1598326-z>

We are looking for a candidate for the position machine mechanic for the client in Hapert.
Our client's new factory in Hapert covers a plant area of 1.5 hectares and is fully equipped with sheet and tube laser machines, machining and welding and stainless-steel finishing. It also has a large assembly area for the construction of components for complete production lines. The company has been around for more than 30 years and employs about 100 professionals.

Bedrijfsomschrijving

Our client has been working under the slogan of high quality work for many years. In his modern factory you will find all the production techniques. In this way, at least I know for sure that it delivers quality. From drawing to finished product. With professionals, in a well-organized company. This is a company with ambitions. They want people to be able to work comfortably in a good working environment: transparent, structured and varied. Because in such an environment people can show their artistry, bring ideas and develop with them. Are you the one professional and do you feel addressed? Don't wait any longer and apply!

Functieomschrijving

You perform assembly work mainly in the field of mechanical engineering in machine construction. Depending on the interest/competence present, combined with electronics, pneumatic, and hydraulic machine parts. This can vary from packaging machines and machines for the food industry in a high-tech environment. Due to this great variety in assignments and customers, you also get the opportunity to work together with other experienced mechanics and thus further develop your knowledge and skills. Maintenance and service of delivered machines are also part of your tasks.
