I'm selling my Monster 797 due to lack of use. I used it for a short term to get work but now I'm working from home.

I bought it new from the dealership at the end of November 2019. It's limited to 35kW to be used with the A2 license (limited electronically so it can be set back to the original 54kW), still even limited it's a fun ride given that it delivers good power on low revs.

Never involved in crashes or accidents

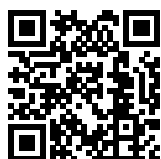

It includes the windshield of the picture as well as the original (small one) and the backseat removable cover.

It's stored on a private parking and the last service was done in at the beginning of May 2023 in an authorized service.
