

## Dell R640 server, 512 GB RAM, 2x Intel Xeon Gold, 40 cores (3.600 EUR)

Locatie **Noord-Brabant, Gemert**  
<https://www.advertentiax.nl/x-1601119-z>

BTW factuur is mogelijk.

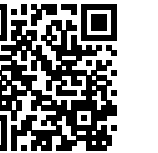

Dell EMC R640 SFF Generation 14, 10 disk bay.

Processor: 2x 20 Core Gold 6133 / 2,5GHz / 3GHz turbo ( 40C 80T 150W )  
 DDR4 RAM Geheugen: 512GB PC4-2400 / 16x 32GB DDR4  
 HDD: 2x 500 GB SAS Dell  
 Raid controller: DELL PERC H730 Mini Mono 12G met 1GB Cache, incl. BBU

4x 10Gb SFP+ en 2x 1Gb RJ45  
 Network Daughter Card:: DELL I350 X520 2x10Gb -SFP + 2x1G-RJ45 RNDK 0C63DV  
 Network Expansion Cards:: Intel X520-DA2 Dual Port 10Gbit PCI-e ( 2x 10GBE SFP+ )  
 Internal SD Card Reader : Geen  
 Rack rails: Rack Rails Dell R630 / R430 / R640 / R440  
 Power supply: 2x 750W Platinum Dell R730 / R630  
 Front Bezel: inclusief (frontje)  
 iDRAC Enterprise incl. licentie

De server is helemaal compleet en heeft altijd in het datacenter gestaan, dus netjes geconditioneerd en stofvrij.

|                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |
