

**Ubiquiti Networks Unifi UAP-AC-PRO x 3 (75 EUR)**

Locatie

## Noord-Brabant, Rosmalen

<https://www.advertentia.nl/x-1602434-z>

75 EUR per stuk

De UniFi AP AC PRO is een 802.11ac PRO Access Point met een weerbestendig ontwerp en beschikt over 3x3 MIMO-technologie en 802.3af PoE / 802.3at PoE + compatibiliteit.

- EAN: 0810354023514

- Vendorcode: UAP-AC-PRO

Kleur product: Wit

Breedte: 196.7 mm

Hoogte: 35 mm

Diepte: 196.7 mm

Diepte: 1967 mm

Vermogen (max): 9 Watt

Spanning: 48 v

Gewicht: 350 gram

Merk: Ubiquiti

Snelheid bedraad: 100 Mbps

Snelheid bedraad: 1000 Mbps

Snelheid bedraad: 10 Mbps

PoE ondersteuning: Ja

|                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                     |
