

VOGUE DeluxeCARRY 3 - Elektrische BAKFIETS (990 EUR)

Locatie

Zuid-Holland, The Hague

<https://www.advertentieX.nl/x-1606268-z>

We bought this bike early 2020 from Spaar Bikes in Den Haag. Annual maintenance delivered by the same bike shop every year, except this year. Total mileage is around 5500km.

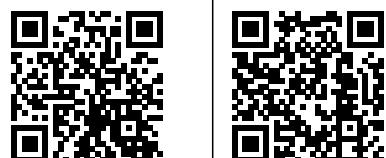

You can view all specifications on the website, the new ones sell for around 2800-2900 EUR, and used ones from 1600+.

Things to consider:

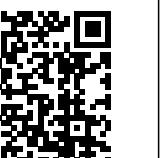

- I was advised to sell without the maintenance as the new buyer would be able to make more relevant decisions for any part replacements, so I skipped maintenance this year. Estimated maintenance cost including parts replacements (brake cords, discs, rear tire etc) might go up to 300 so I am deducting that from target price,
- both front tires replaced at around 3500km,
- the Bafang LCD digital screen replaced at around 3000km. It works perfectly, though the plastic plate has a blur on it not sure how it got there, please refer to photo 6,
- the wood is slightly damaged on the right front side as big as the palm of a hand, as visible in on photo 5 and advisable to be patched,
- one of two front lights is broken, so will have to be replaced during maintenance, cost around 10,-
