MacBook Pro 15-inch, 2017 model in good condition.

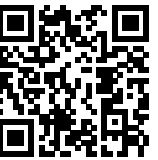

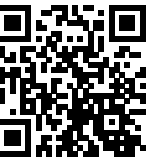

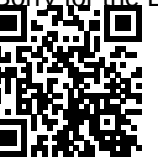

I am selling this because it has a US keyboard layout, and I have recently bought a new MBP with NL keyboard layout.

Specs:
 2,8 GHz Quad-Core Intel Core i7
 Intel HD Graphics 630 1536 MB
 16 GB 2133 MHz LPDDR3 RAM
 Serial number available on request (redacted from images as well)
 MacOS 13.4.1 (latest)

The MacBook is overall in good condition, and not used very much. It works perfectly and I have factory reset it so it is ready to be used. There are a few small stains / scratches from use on the outside lid (see pictures). The T and Cmd keys on the keyboard are a bit loose. Touch Bar and everything else in perfect working order.

Note: Keyboard layout is US and the USB-C electricity plug is a UK model (I bought this in the UK. You can get a UK-EU power socket adapter from Bol for about €5.)

(Sorry for the English communication; I have recently moved to the Netherlands and don't yet speak)
