

# Electrical Engineer

Locatie **Zeeland, Terneuzen**  
<https://www.advertentiax.nl/x-1619163-z>

For a client in Antwerp, we are looking for a Electrical Engineer.

## Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

## Functieomschrijving

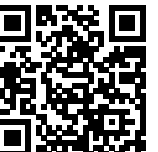

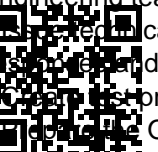

- Work in compliance with guidelines, work processes and methods as determined within the discipline.
- Critical thinker about existing guidelines, work processes and methods. Deliver suggestions for possible improvements.
- Analyse and evaluate the applicable requirements, codes and standards.
- Translate and develop them into a substantiated system design, in compliance with current knowledge and latest technology.
- Outline technical specifications for systems and equipment, functional specifications together with partners where appropriate. For the systems that are procured, guide and follow-up the respective suppliers to guarantee high quality of engineering.
- Lead the engineering activities for the allocated systems and monitor quality, assess input from

engineering team, partners, system suppliers or component vendors.  
 • Provide technical quality control for client in the field and hand over to the technician to ensure  
 the design and results.  
 • Develop and implement protocols for design, production methods and handover.  
 • Operate the maintenance department to be delivered to customers, to operate and  
 Maintenance.

- Engineering in the design and provide support to the in-house Monitoring & Maintenance department.
- Provide support towards Construction & Commissioning: Definition of procedures, tools & systems to  
 organize the works for the construction of the products to be delivered.
