

## Spro Specter finesse spinning - Medium Heavy, 2.68m, 18-48gr (85 EUR)

Locatie **Noord-Brabant, Volkel**  
<https://www.advertentiax.nl/x-1624517-z>

Deze hengel is zo goed als nieuw, nog geen 5 sessies mee gevist. De hengel heb ik gekocht bij Hengelsport Fauna.

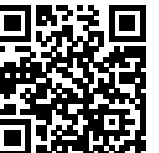

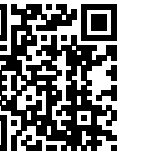

De Spro Specter Finesse Spinning - Medium Heavy is perfect geschikt voor het vissen met middelgroot kunstaas op snoek en snoekbaars, maar ook voor zeebaars is deze hengel bijzonder goed in te zetten. Dankzij de extra snelle actie heeft deze hengel perfecte werpeigenschappen en optimale prestaties bij het drillen van een vis. De Spro Specter Finesse Spinning - Medium Heavy is uitgerust met hoogwaardige ogen en een comfortabel handvat van foam.

- 2.68m
- 18-48gr werpgewicht
- power: medium-heavy
- action: extra-fast
- 2 delig

De hengel komt met de bijbehorende hengelhoes.

De hengel gebruik ik nauwelijks, omdat ik deze niet goed kan gebruiken met mijn visserij.

Nieuwprijs: €113

|                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                        |
