

## Audi RS3 430PK 640NM Quattro RS 3 (26.500, EUR)

Locatie **Groningen, Appingedam**  
<https://www.advertentiax.nl/x-1650324-z>

Hierbij bied ik mijn Audi RS3 aan

Ik heb de auto nu een jaar in bezit gehad, helaas moet ik gaan kijken naar iets groters ivm werk.

Auto is netjes onderhouden en is absoluut niet bespaard op de kosten!

1000km geleden nieuwe Pirelli P zero banden opgekomen, voor en achter.  
 Nieuwe remschijven + remblokken voor.

Op 10 januari dit jaar is de auto door Van Vught Tuning gechipt naar 430 pk en 640 nm  
 (Uitdraai testbank aanwezig)  
 Daarbij is er een custom 3,5 inch downpipe gemonteerd om tot dit vermogen te komen.

Auto is uitgerust met een ingebouwde Kenwood dashcam  
 voor + achter (valt niet op)

De meeste modellen van deze generatie hebben geen bluetooth op de standaard radio, deze wel!

|                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |
