We are expats leaving Amsterdam and we are in the process of selling everyting. We live in the city center on the Herengracht and this has been a very fun little car to get around town!

This has been an amazing electric car, we purchased it in February of this year and have only driven it 350 km and it is still under the factory warranty!

Because it is electric and considered a micro car getting a parking permit in the city center is super easy and is about a fourth of what a full car costs.

We are moving to Ireland and our kids have started school there so we are traveling back and forth on weekends through September. Please let me know if you want to see it this weekend or possibly next.

Thanks Lillie :)
