This is a Core XR6 which i am selling with a Sensor 2s+.
 The kite is in a good condition. There is 3 small tears in the canopy which have been patched very well (as seen in the pictures).
 I replaced the lines on the bar for new ones (the lines used were the pro Tectanium ones, which are even sturdier than the normal ones).
 This kite used to belong to Joshua Emanuel himself !
 It's a great kite, great sessions with it. But due to gear update, i am selling it.
 I cannot sell the bar and the kite separately as it is much harder to sell separately. Price is slightly.
