

Google hangouts meet speakermic

Locatie **Noord-Holland, Amsterdam** https://www.advertentiex.nl/x-1662071-z

The ASUS Hangouts Meet Speakermic brings distraction-free meetings to every conference room. The Hangouts Meet speakermic is designed and built by Google from the ground up to deliver rich, immersive, crystal-clear 360 sound. It intelligently reduces echo and actively manages background noise. Each speakermic has four microphones to ensure clear pickup from up to 20 feet. Best-in-test echo cancellation ensures full-duplex communication without noise, echo or reverberation. Daisychain up to 5 Hangouts Meet speakermics together with a single cable to deliver high-quality audio across any size table.

Cabling is made easy: the speakermics connect via ethernet and only the first device requires external power. Each Hangouts Meet speakermic has one micro USB port, one power adapter, and 2 ethernet ports for daisychaining. Best of all, your Hangouts Meet speakermic is always up to date and improving with automatic, over the air firmware updates from Google.

Daisychain up to 5 speakermics together Automatic firmware updates Active echo cancellation and background noise management 360° sound input/output up to
