Board gaat weg door aanschaf van een kleinere maat board. Super fijn board waar ik veel plezier van heb gehad en altijd goed en zuinig mee om is gegaan. Daarom is het board nog in hele goede staat en wordt verkocht zonder footpads!

Volgens F-one:

The One

ONE of the easiest and comfortable to ride, with a great upwind performance plus amazing maneuverability. The straight rocker offers easy planning and great performance edging to get you going, holding your line upwind.

The playful flex allows the board to remain comfortable, keeping it easy for the legs and knees. The moderate width at the tips provides great maneuverability. With a versatile outline and rounded tips, that makes this board a truly all-round performer, with a very forgiving constitution.

The single concave bottom makes the board very comfortable in the chop and very easy to control. Thanks to its ABS sidewalls and a specific deck reinforcement patch, the ONE is very durable and incredibly easy to.
