1965 Chrysler Newport – Pro Stock style!
 This is a wild looking MOPAR!

It's not a real racecar, it has the l@@ks and sound, the paint job is drivers quality , but the color-combination and 'stance' makes it feel like the old Pro Stock days.

It has a custom interior, new racing seats and most meters on the instrument panel are working. It's a nice driver, steering feels tide and the brakes work fine. Even the shocks are in good working order.

The engine (1968 383cid engine nr. 2468130) is dressed with Edelbrock aircleaner, 4 barrel Edelbrock 1406 carb, high rise single plane intake from Edelbrock, MSD blaster coil, electronic MOPAR (orange) ECU ignition and a custom aluminum radiator.

The transmission (Torqueflite 727) shift's firm without hesitation. We serviced the engine, put the carb. In a ultrasonic bath, put new needles in it, new spark plugs, oil, set the ignition and it's ready to go!

Now in our shop in the Netherlands, running on Dutch license plates APK free. This is one mean MOPAR, give us a call!
