Kindle previous generation, very well protected as always use in the cover. Both blue and grey are the sleep cover, the grey one is completely new, the screen cover is also new and for free. The screen is with the perfect condition. The battery status is still healthy, with one hour reading everyday the battery can last for weeks. Didn't come with charging cable, it is micro USB charging. 8GB is for more than 1.000 books capacity. Sell because I have more Kindles to use, and now use the other one.
